Target Groups

Main Objectives

- A. **Guidelines for HE institutions** to implement **transparent assessment of learning outcomes** for online and blended learning in the context of digital and **microcredentials**
- B. **Design online and blended learning curricula** for virtual and blended cooperation of consortium institutions embedding transparent assessment and mutual recognition of learning outcomes.

Intellectual Outputs

- IO1.** Design transparent assessment strategies for online learning in HE
- IO2.** Monitor, support students based on evidence generated by digital technologies
- IO3.** Ensuring digital and microcredentialization of learning as a part of a transparent assessment for recognition of learning outcomes
- IO4.** Guidelines for HE institutions to implement transparent assessment of learning outcomes for online and blended learning, microcredentials
- IO5.** 10 courses for virtual and blended cooperation of institutions
